(Both by post and by e-mail)

No. 7785 / Acd.-I

Dated: 26/10/16

To

The Principals,

(All the Affiliated Colleges under Sambalpur University having
Three Year Degree Courses excluding Autonomous Colleges.)

**Sub: Syllabus & Implementation of CBCS pattern Arts/Science/Commerce (Pass and
Hons.) from the Academic Session 2016-17.**

**Ref :- This office letter No 5314/ Acd.-I dated 21.7.16 and letter No. 5970/Acd.-I
dated 8.8.16.**

Sir,

In continuation to the letters and the subject cited above, I am directed to intimate you that the Vice- Chancellor has been pleased to approve the syllabus for Courses / papers related to **Home Science** for CBCS + 3 courses degree B.A. (Both Pass & Hons.) examinations under 6 (15) of O.U. Act -1989 giving it effect from the Academic Session, 2016-17. The detail Courses of Studies is enclosed herewith for your reference and necessary action.

This may kindly be noted that it is the final syllabus for *Home Science* subject/ papers under CBCS pattern. It may be made available to teachers and students concerned. Further you are requested to ensure teaching of the courses in your colleges accordingly.

Any error and omission etc. may kindly be intimated to this office.

. Any queries on the matter may be made through e-mail: coesuniv@gmail.com.

Thanking you,

Yours faithfully,

Encl: *As above*

Preamble

Home Science has contributed a great deal towards national development by training students to take up leadership roles in extension and community outreach programs. The students are encouraged to develop a scientific temper. Familiarizing them with the use of newer technologies, methods in family and community linkages, and sustainable use of resources for human development are the hall mark of education in Home Science. As a discipline Home Science integrates the ingredients of the sciences, social sciences and technology to facilitate the study of and enhance the quality of human life. Its approach is therefore inherently interdisciplinary. Traditionally, Home Science has adopted an ecological approach in its curriculum that engages the student through teaching, research and extension. The education process in Home Science underscores the importance of the individual's dynamic relationship with his/her family, community and society as a whole, as well as with the resources in the environment. Higher education learning in Home Science subjects provides students the opportunity to sharpen their capacities with a sense of social responsibility.

In contemporary times, Home Scientists promote capacity building of individuals and communities for social and economic empowerment. They train community women and youth from various strata of society for entrepreneurship. Many Home Scientists have done exceptionally well as entrepreneurs themselves. They do not remain job seekers but have also become job creators. They gain and provide employment in research organizations, food and textile industries, dietetic practice, education and child development domains, accreditation of green buildings, strategic planning and communication technologies. Keeping in view the growing aspirations of today's youth and the capacity of Home Science discipline to deliver, the present 3-year Choice Based Credit System curriculum has been drawn up.

Years of national and international experience in the field has contributed to the wisdom that all the five windows of opportunity that Home Science offers be opened for i.e. Food and Nutrition, Human Development and Childhood Studies, Resource Management and Design Application, Development Communication and Extension and Fabric and Apparel Sciences. In this course, the students will learn the fundamental principles and foundations of all the five areas. They are expected to internalize the principle of a Home Scientist, that is, to give back to the community from which they draw, for sustainable development. This is a major contribution of Home Science in both developed and developing societies.

The University Grants Commission's model curriculum of Home Science reflects a similar philosophy.

The objectives of the B.Sc. (Hons.) Home Science Honours course are:

- To understand and appreciate the role of interdisciplinary sciences in the development and well-being of individuals, families and communities
- To learn about the sciences and technologies that enhance quality the life of people
- To acquire professional and entrepreneurial skills for economic empowerment of the student in particular, and community in general
- To develop professional skills in food, nutrition, textiles, housing, product making, communication technologies and human development
- To take science from the laboratory to the people

CORE COURSES

Core Course 1 : HUMAN DEVELOPMENT I: THE CHILDHOOD YEARS

(CREDITS: THEORY-4, PRACTICAL-2)

THEORY

LECTURES: 60

Unit I : Introduction to Human Development

15

- Definition & History of Human Development
- Scientific Studies of Child Development
- ~~• Foundations of the Developmental Pattern~~
- Principles of Growth and Development

Unit II : Prenatal Development, Birth and the Neonate

15

- Reproductive health
- Conception, Pregnancy and Birth
- Capacities and care of the new born

Unit III : Infancy and Preschool years

15

- Physical and Motor development
- Social and Emotional development
- Cognitive and Language development

Unit IV : Middle Childhood years

15

- Physical and motor Development
- Social and Emotional development
- Cognitive and Language development

PRACTICAL

1. Methods of study and their use

- Interview
- Narratives

2. Cultural practices related to pregnancy and infancy

3. Plan and develop activities to facilitate development in different domains. Preparation of material for parents children (poster, toys etc)

4. Study the role of salient others in child's life- familial and non-familial

5. Survey of selected resources for family and children in the community and the market

**Core Course 2: FOOD AND NUTRITION
(CREDITS: THEORY-4, PRACTICAL-2)**

THEORY

LECTURES:60

Unit I: Basic concepts in food and nutrition **5**

- Basic terms used in study of food and nutrition
- Understanding relationship between food, nutrition and health
- Functions of food-Physiological, psychological and social

Unit II: Nutrients **20**

Functions, Dietary Sources and clinical manifestations of deficiency/ excess of the following nutrients:

- Energy, Carbohydrates, lipids and proteins
- Fat soluble vitamins-A, D, E and K
- Water soluble vitamins – thiamin, riboflavin, niacin, pyridoxine, folate, vitamin B₁₂ and vitamin C
- Minerals – calcium, iron, zinc and iodine

Unit III: Methods of cooking **5**

- Dry, moist, frying and microwave cooking
- Advantages, disadvantages and the effect of various methods of cooking on foods

Unit IV: Food Groups **25**

- Structure, composition, Products, nutritional contribution, selection and changes during cooking of the following food groups:
- Cereals
- Pulses
- Fruits and vegetables
- Milk & milk products
- Eggs
- Meat, poultry and fish
- Fats and Oils
- Spices and herbs

- Beverages

Unit V: Nutrient losses in cooking and enhancing the nutritional quality of foods-

- Supplementation, Germination, Fermentation, Fortification and GM foods **5**

PRACTICAL

1. Weights and measures; preparing market order and table setting **1**
2. Food preparation, understanding the principals involved, nutritional quality and portion size **13**

- **Beverages:** Hot tea/coffee, Milk shake/ lassi, fruit based beverages
- **Cereals:** Boiled rice, pulao, chapatti, parantha, puri, pastas
- **Pulses:** Whole, dehusked
- **Vegetables:** curries, dry preparations
- **Milk and milk products:** Kheer, custard
- **Meat, Fish and poultry preparations**
- **Egg preparations:** Boiled, poached, fried, scrambled, omelettes, egg pudding
- **Soups:** Broth, plain and cream soups
- **Baked products:** Biscuits/cookies, cream cakes, sponge cake preparations, tarts and pies
- **Snacks:** pakoras, cutlets, samosas, upma, poha, sandwiches
- **Salads:** salads and salad dressings.
- **Fermented products:** idli, dosa, appam, batura, kulcha, dhokla

**Core Course 3: DYNAMICS OF COMMUNICATION AND EXTENSION
(CREDITS: THEORY-4, PRACTICAL-2)**

THEORY

LECTURES 60

Unit I: Communication: Concepts

18

- Historical background, concept and nature

- Functions of Communication
- Types of Communication - communication transactions; Formal and informal communication; Verbal and Non-verbal Communication
- Scope of Communication- Education, training and learning industry, Motivation and Management, Corporate Communication, Management of Organisations, Advertising and Public relations
- Communication and mainstream media- newspaper, radio, television and Cinema, ICTs and web based communication
- Communication for social change

Unit II: Understanding Human Communication **20**

- Culture and communication- Signs, symbols and codes in communication
- Postulates/Principles of Communication
- Elements of Communication and their characteristics
- Models of Communication
- Barriers to Communication

Unit III: Communicating Effectively **8**

Concept, nature and relevance to communication process:

- Empathy
- Persuasion
- Perception
- Listening

Unit IV: Communication for Extension **14**

- Concept, nature and philosophy of Extension
- Principles of Extension
- Methods and Media of community outreach; Audio-Visual aids- concept, classification, characteristics and scope.
- Relationship between, Communication, Extension and Development

PRACTICAL

- | | |
|--|----------|
| 1. Developing skills in planning and conducting small group communication. | 3 |
| 2. Review of media on selected issues | 3 |
| 3. Design and use of graphic media | 9 |

Core Course 4: RESOURCE MANAGEMENT
(CREDITS: THEORY-4, PRACTICAL-2)

THEORY

LECTURES: 60

Unit I: Introduction to Resource Management

18

- Concept, universality and scope of management
- Approaches to management
- Ethics in management
- Motivation Theory

Unit II: Resources

20

- Understanding meaning, classification and characteristics of resources, factors affecting utilization of resources.
- Maximizing use of resources and resource conservation.
- Availability and management of specific resources by an individual/ family
 - Money
 - Time
 - Energy
 - Space
- Application of Management Process in:
 - Event Planning & Execution

Unit III: Functions of Management: An overview

22

- Decision Making
- Planning
- Supervising
- Controlling
- Organizing
- Evaluation

PRACTICAL

1. Resource conservation and optimization/green technologies (natural resources): Portfolio
2. Identification and development of self as a resource. **3**
 - SWOT analysis-who am I and Micro lab
 - Building Decision Making abilities through management games
3. Preparation of time plans for self and family **3**
4. Time and Motion Study **3**
5. Event planning ,management and evaluation-with reference to **2**
 - Managerial process
 - Resource optimization - time, money, products, space, human capital

**Core Course 5: INTRODUCTION TO TEXTILES
(CREDITS: THEORY-4, PRACTICAL-2)**

THEORY	LECTURES: 60
Unit I: Introduction to textile fibres	8
<ul style="list-style-type: none"> - Morphology of textile fibres - Primary and secondary properties - Fibre classification 	
Unit II: Production, chemistry, properties and usage of fibres	16
<ul style="list-style-type: none"> - Natural fibre: Cotton, Flax, Silk and Wool - Man-made fibers: Rayon, Polyamides, Polyester, Acrylic, Olefins (Polyethylene and Polypropylene) and elastomeric fibres 	
Unit III: Production and properties of Yarns	10
<ul style="list-style-type: none"> - Yarn construction: <ul style="list-style-type: none"> Mechanical Spinning (Cotton system, Wool system, Worsted system) Chemical Spinning (Wet, Dry, Melt) - Types of yarns: Staple and Filament, Simple yarns, Complex yarns - Yarn Properties-Yarn Numbering, Yarn Twist - Textured yarns: Types and properties - Difference between Threads and Yarns - Blends: Types of blends and purpose of blending 	
Unit IV: Techniques of fabric construction	12
Weaving	
<ul style="list-style-type: none"> - Parts of a loom - Operations and motions of the loom - Classification of weaves- construction, characteristics, usage 	
Knitting	6
<ul style="list-style-type: none"> -Classification of knits -Construction and properties of warp and weft knits 	
Non-wovens	3
<ul style="list-style-type: none"> -Types - Construction 	

- Properties and usage

Unit V: Basics of Wet Processing **5**

- Classification and uses of finishes
- Fundamentals of dyeing and printing

PRACTICAL

- | | |
|--|---|
| 1. Fibre Identification tests –Visual, burning, microscopic and chemical | 2 |
| 2. Yarn Identification – Single, ply, cord, textured, elastic, monofilament, multifilament and spun yarn | 2 |
| 3. Thread count and balance | 2 |
| 4. Dimensional stability | 1 |
| 5. Weaves- Identification and their design interpretation on graph | 3 |
| 6. Fabric analysis of light, medium & heavy weight fabrics (five each) | 2 |
| - Fibre type | |
| - Yarn type | |
| - Weave | |
| - GSM | |
| - End use | |
| - Trade name | |
| 7. Tie and Dye | 3 |

**Core Course 6: COMMUNICATION SYSTEMS AND MASS MEDIA
(CREDITS: THEORY-4, PRACTICAL-2)**

THEORY

LECTURES 60

Unit I: Self and Communication

8

- Awareness of self in communication
- Intrapersonal Communication
- Self-concept and self esteem

26

Unit II: Interpersonal Communication

12

- Concept, types and functions of interpersonal communication
- Dyadic, small and large group communication
- Stages in human relationship development
- Small group communication: types and functions

Unit III: Organization, Public and Mass Communication

25

- Organizational communication: concept, types, functions and networks
- Public communication- concept and techniques
- Mass Communication- concept, significance, functions and elements
- Theories and models of mass communication
- Intercultural communication- concept, stages and barriers
- Relationship between culture and communication

Unit IV: Mass Media

15

- Print Media: types, nature, characteristics, reach, access.
- Radio: types, nature, characteristics, reach, access.
- Television and cinema: types, nature, characteristics, reach, access.
- ICTs: types, characteristics, reach and access.

PRACTICAL

- | | |
|---|---|
| 1. Know yourself exercises. | 3 |
| 2. Studying group dynamics in organizations- formal and informal. | 3 |
| 3. Audience analysis- readership, listenership and viewership studies | 5 |
| 4. Content analysis of mass media | 4 |

**Core Course 7: PERSONAL FINANCE AND CONSUMER
STUDIES (CREDITS: THEORY-4, PRACTICAL-2)**

THEORY

LECTURES: 60

Unit I: Income and Expenditure

18

- Household Income – Types, Sources, Supplementation of family income, use of family income, budgets, maintaining household accounts
- Factors influencing expenditure pattern
- Family savings and investments- need ,principles, channels of investment, tax implications
- Consumer credit- need, sources, credit cards, Housing finance
- Personal finance management – tax implications, calculation of personal income tax,
- Guidelines for wise buying practices

Unit II: Consumer in India: Consumer problems and education

20

- Definition of a consumer
- Role of consumers in the economy, National Income, Per Capita Income, Household wise distribution of income
- Changing nature of the business world –e-commerce, e-business
- Types of consumer problems – products and service related, investment and infrastructure related, Causes and solutions
- Consumer education and empowerment

Unit III: Consumer Protection

22

- Consumer protection
- Consumer rights and responsibilities
- Consumer organizations – origin, functioning, role and types.
- Consumer cooperatives – role, history and growth in India, PDS Kendriya Bhandars.
- Basic legislative framework for consumer protection in India, Consumer Protection Act 1986 COPRA, Alternative redressal mechanisms, Mediation centres
- Standardization and quality control measures: ISI, FPO, AGMARK, ISO, Eco mark, Wool mark, Silk mark, Cotton mark, Handloom mark, BEE star labelling and others
- Regulations on Food Labelling and Claims: FSSAI, Codex for consumers

PRACTICAL

1. Evaluation and designing of advertisements in the print media including products, services and social ads. **3**
2. Evaluation and designing of informative and attractive labels of different type of food products. **3**
3. Case study of banks and post offices to understand their services and **3**

125

- products, Learning to fill different bank forms
- 4. Analysis of consumer redressal through case study approach under CPA. **3**
- 5. Food adulteration tests **2**

Core Course 8: HUMAN DEVELOPMENT II : DEVELOPMENT IN ADOLESCENCE AND ADULTHOOD (CREDITS: THEORY-4, PRACTICAL-2)

THEORY LECTURES :60 Unit I: Introduction to Adolescence

- Developmental tasks during Adolescence
- Puberty, sexual maturity, nutrition, health, and psychological well-being
- Self and identity
- Family and peer relationships
- Adolescent interface with media

Unit II: Cognitive, Language and Moral development

- Perspectives on cognitive development
- Development of intelligence and creativity
- Adolescent language
- Adolescent morality

Unit III: Introduction to Adulthood

- Definitions, transition from adolescence to adulthood
- Developmental tasks of adulthood
- Physical and physiological changes from young adulthood to late adulthood
- Significance of health, nutrition, and well being

Unit IV: Socio-emotional and Cognitive development

- Diversity in roles and relationships
- Marriage-contemporary trends
- Parenting and grand parenting

PRACTICAL

1. To study physical and sexual changes in adolescence
2. To study cognitive development and creativity during adolescence
3. Case profile of an adolescent- including study of self, family relationships and peer relationships.
4. Use of interview/questionnaire method to study adult roles (at least one male and female)
 - Father/husband
 - Home maker
 - Employed woman
 - Grandfather/Grandmother
 - Single parent
 - College-going young adults
5. Familiarity with Psychological Tests of Intelligence and Personality- any four

Core Course 9: NUTRITION: A LIFE CYCLE APPROACH (CREDITS: THEORY-4, PRACTICAL-2)

THEORY

LECTURES :60

Unit I: Principles of meal planning

12

- Food groups and Food exchange list
- Factors affecting meal planning and food related behavior
- Methods of assessment of nutrient requirements
- Dietary guidelines for Indians

Unit II: Nutrition during adulthood

20

Physiological changes, RDA, nutritional guidelines, nutritional concerns, energy balance and healthy food choices.

- Adults
- Pregnant women

124

- Lactating mothers
- Elderly

Unit III: Nutrition during childhood

20

Growth and development, growth reference/standards, RDA, nutritional guidelines, nutritional concerns, and healthy food choices.

- Infants
- Preschool children
- School children
- Adolescents

Unit IV: Nutrition for special conditions

8

- Nutrition for physical fitness and sport
- Feeding problems in children with special needs
- Considerations during natural and man-made disasters e.g. floods, war.

PRACTICALS

1. Introduction to meal planning

2

- Rich sources of nutrients
- Use of food exchange lists

2. Planning nutritious diets for:

10

- Young Adult
- Pregnant/ Lactating woman
- Preschooler
- School age child/Adolescent
- Elderly

3. Planning nutrient rich snacks/dishes for:

2

- Infants (Complementary foods)
- Children/Adults

**Core Course 10: FASHION DESIGN CONCEPTS
(CREDITS: THEORY-4, PRACTICAL-2)**

THEORY	LECTURES (60)
Unit I: Fashion	16
<ul style="list-style-type: none"> • Terminology • Fashion cycle • Sources of fashion • Factors favouring and retarding fashion • Role of a Designer • Leading Fashion centres and designers 	
Unit II: Importance of clothing	16
<ul style="list-style-type: none"> • Clothing functions and theories of origin • Clothing terminology • Individuality and conformity, conspicuous consumption and emulation • Selection of clothes for self • Selection and Evaluation of ready-made garments 	
Unit III: Components of garment: classification and application	20
<ul style="list-style-type: none"> • Fabric, seams, stitches, thread, shaping methods, dart equivalents • Sleeves, cuffs, necklines, collars, plackets, yokes, pockets and trims • Style variation: bodice, skirts, trousers in various silhouettes 	
Unit IV: Design	8
<ul style="list-style-type: none"> • Elements and principles of design • Structural and applied design 	
PRACTICAL	
1. Flat sketching of garment components	3
2. Identification of garment components	3
3. Interpretation of elements and principles of design concepts from print and visual mediums	6
4. Study of collections of famous designers	2

RECOMMENDED READINGS:

**Core Course 11: THERAPEUTIC NUTRITION
(CREDITS: THEORY-4, PRACTICAL-2)**

THEORY

LECTURES: 60

Unit I Principles of nutrition care

8

- Nutrition Care Process
- Therapeutic adaptations of the normal diet
- Progressive diets – clear fluid, full fluid, soft and regular

Unit II Etiology, clinical features and nutritional management of Infections and Fevers

8

- Typhoid
- Tuberculosis
- HIV

Unit III Etiology, clinical features and nutritional management of the following

18

- GI Tract Disorders:
 - Diarrhoea
 - Constipation
 - Lactose intolerance
 - Celiac disease.
- Liver: Infective Hepatitis

Unit IV Etiology, clinical features and nutritional management of

10

- Weight Imbalances-Overweight and obesity; Underweight
- Eating disorder- anorexia nervosa and bulimia

Unit V Etiology, clinical features, basic diagnosis and nutritional management of the Following

12

- Type 1 and Type 2 Diabetes Mellitus
- Metabolic Syndrome
- Hypertension and Coronary Heart Disease

Unit VI Food allergy and food intolerance

4

- Etiology, clinical features, diagnosis and nutritional management

PRACTICAL

Planning, preparation and service of diets for the following:

Therapeutic Diets – Normal, Soft, Clear and full fluid

- i. Fevers: acute and chronic
- ii. Obesity
- iii. Type 2 Diabetes
- iv. Hypertension and CHD

✓ 22

- v. Survey therapeutic foods in market

Core Course 12: PHYSIOLOGY AND PROMOTIVE HEALTH (CREDITS: THEORY-4, PRACTICAL-2)

THEORY

LECTURES: 60

Unit I : Physiology

Cardio- Respiratory Physiology	10
<ul style="list-style-type: none"> • Blood -Composition and function, Anemia, Jaundice • Blood circulations (systemic, pulmonary, coronary and portal) • Cardiac cycle, Cardiac output, Blood pressure • Structure of lungs and its function • Lung volume and Capacities 	
Gastrointestinal Physiology	10
<ul style="list-style-type: none"> • Structure of stomach, liver, gallbladder, pancreas and their functions • Composition, function and regulation of GI secretions 	
Neuro- Endocrine Physiology	10
<ul style="list-style-type: none"> • Organization of nervous system • Actions and disorders of Pituitary, Thyroid and Parathyroid, Adrenal and Pancreatic hormones 	
Renal and Reproductive Physiology	10
<ul style="list-style-type: none"> • Structure of kidney and its function • Physiology of Menstruation and Menopause • Physiology of Pregnancy and lactation 	

Unit II : Promotive Health

Concept of health , Disease and its Prevention	4
--	----------

- WHO definition of Health, Basic concept of Disease and Disease transmission,
- Definition of Public Health and Disease Prevention, Concept of Immunization and Immunization Schedule

Communicable Diseases

6

- Causative organism, Mode of transmission and Prevention and Control of Tuberculosis , Enteric Fever, Dengue fever, HIV/AIIDS

Non Communicable Diseases

- General risk factors and Prevention of Diabetes, Hypertension and Cancer

Mental Health

6

- Psychosis, Neurosis, Drug abuse and Alcoholism

Maternal Health

4

- Antenatal Care, Family Planning and contraception

PRACTICAL

1. Case study of Iron deficiency Anemia, investigations and diagnosis. Blood indices
2. Measurement of Blood pressure by using sphygmomanometer.
3. Demonstration of normal chest X ray
4. Demonstration of Reflex action
5. Demonstration of procedures of clinical examination to see for pallor , jaundice , edema and dehydration and their importance.
6. Latest imaging techniques like USG, CT, MRI the basic procedures
7. Basic First aid procedures, CPR, Burns
8. Visit to a DOTS center
9. Preparation of a project on Antenatal Care for women

RECOMMENDED READINGS

- Ganong WF (2003). *Review of Medical Physiology*, 21st ed. McGraw Hill.
- J.E. Park and K. Park (2009). *Park's Textbook of Preventive and Social Medicine*, 20th edition. M/s Banarsi Das Bhanot, Jabalpur.
- Ross and Wilson(1973). *Foundation of Anatomy and Physiology*, Medical Division of Longman Group Ltd.
- Yash Pal Bedi (1980). *A Handbook of Social and Preventive Medicine*, Atma Ram and Sons.

**Core course 13: RESEARCH METHODOLOGY IN HOME SCIENCE
(CREDITS: THEORY-4, PRACTICAL-2)**

THEORY

LECTURES: 60

Unit I: Research- Meaning, purpose and approaches

20

- Exploration, Description, Explanation
- Scientific method and research
- Research Designs –Experimental and Observational
- Quantitative and Qualitative approaches

Conceptualization and Measurement

- Variables, concepts and measurement
- Levels of measurement
- Units of analysis

Unit II: Sampling & Tools

20

- Role of sampling in research

- Types of sampling

Research Tools and Techniques

- Validity and reliability
- Interviewing and observational methods

Unit III: The Research Process

20

- Defining the problem, research questions, objectives, hypotheses
- Review of related literature and originality in writing
- Planning the research
- Subjects context and ethics
- Methodology and tools
- Citation formats: in medical sciences, social sciences

PRACTICAL

1. Exercise in sampling, random number table.
2. Exercise in designing tools and their analysis : interview, questionnaire.
3. Data collection process: conducting interviews, FGDs, case studies

RECOMMENDED READINGS

- Kumar, R. (2005) *Research Methodology : A Step by Step Guide for Beginners*. Sage Publications, New Delhi.
- Kerlinger F. N. and Lee, H.B. (2000) *Foundations of Behavioural Research* 4th Ed. Harcourt College Publishers
- Kothari, C. R. (2008) *Research Methodology: Methods and Techniques* 2nd Ed. New Age International Pvt Ltd, New Delhi.
- Black, J.A. & Champion, D. J. (1976) *Methods and Issues in Social Research*. New York: John Wiley and Sons.

Core Course 14: SOCIO ECONOMIC ENVIRONMENT (CREDITS: THEORY-4, PRACTICAL-2)

THEORY

LECTURES :60

Part I: Sociological Concerns and Orientation

Unit I Sociological Orientation

- Society, Culture and Institutions
- Family, Kinship and Relationships
- Social Groups and multiplicity
- Cultural diversity in contemporary life.

Unit II Emergence of New Ideological Orientations

- Social mobility and social change
- Emergent Cultural Stereotypes
- Ethnographic approaches to the study of groups.
- Appreciating cultural plurality, Interconnection between the spheres
- Sociological Studies of Children, Youth and Women the aged: Empirical Problem & Frameworks.

Part II : Economic Theory and Environment

Unit III: Introduction – Economic system, Consumption and production and distribution

- Definition, scope of Economics, Central problems of an economy
- Wants – Classification and Characteristics.
- Utility – Law of Diminishing Marginal Utility, Law of Equi-Marginal Utility Demand – Law of Demand, Elasticity of Demand.
- Engel's Law of Consumption, consumer's surplus
- Supply – Law of Supply, Elasticity of Supply, equilibrium of Demand and Supply.
- Factors of Production– land, labour and capital, National Income estimates
- Types of Markets
- Types & functions of money, value of money – quantity theory, measurement of the value of money-Index number, inflation
- Types & functions of Banks
- Revenue, Taxation and International trade

Unit IV: Indian Economic Environment

- Structure of Indian Economy: Changing structure of Indian Economy.
- Constraints on growth: issues of population, income distribution, poverty, unemployment, inequality and migration, food security.
- Role, importance and organization of Indian Agriculture.
- Role, importance and problems of Indian industries, India's International Business and Balance of payment problems.
- Recent developmental programmes of the Government of India: Jana Dhana Yojna, Sarva Siksha Yojana.
- Planning: models, objectives and achievement
- Issues related to health, education, environmental problems and gender.

PRACTICAL

Part 1 Practical

- Changing families & relating in society.
