

**Guidelines for Establishment and Operation of the Centre of
Excellence (COE) established at State Universities of Odisha under
OHEPEE**

Preamble: A number of Centres of Excellence have been selected to be established at the State Universities of Odisha under the World Bank program Odisha Higher Education Plan for equity and Excellence (OHEPEE). The State universities were asked to submit their Institutional Development Plans (IDP) and proposals for specific COE to the OHEPEE and Odisha State Higher Education Council (OSHEC) as per the Operational Manual. The Concept of COE has been mooted with an objective of creating nuclei of excellence in faculty research in specific cutting edge areas of natural sciences, Engineering Sciences, Humanities and Social Sciences at the state Universities. This is a sequel to the State Government's financial grant to Utkal University for opening a central instrumentation centre (CIC) and other measures towards research upgradation. The idea is to promote and facilitate research in both fundamental and application oriented themes of interest to the state.

All the five universities selected under OHEPEE (except Open University) had submitted 12 proposals for establishing such centres. The proposals were sent for review to two different domain experts who are nationally renowned in the respective areas. The reviewers were provided a format where they critically assessed and commented on the relevance, research gap, methodology, expected outcomes, budget and feasibility of the proposals. They evaluated the proposals on a scale of 10 and also submitted suggestions for their improvement.

On receipt of the reviews, they were analysed and the concerned teams led by respective Vice Chancellors from the universities were invited for discussion during the signing of MOU at the OSHEC. The

meeting was chaired by Vice Chairman, OSHEC in the presence of PD, OHEPEE who is also Member Secy, OSHEC. The University teams were apprised of the comments from the reviewers and requested to submit a revised proposal including the detailed objective, methodology, budget, manpower, equipment list as well as the expected deliverables.

Since creation of COE is a first in the state, it was decided to designate few nationally renowned domain experts as academic mentors to each proposal. The mentors will closely monitor the progress of research, provide suggestions, guidance and suggest mid-course corrections if deemed necessary. The expenditure towards mentor's TA, Hospitality and Honorarium would be paid out of the project funding by the University. The frequency of consultation with the mentor will depend on the specific nature of the project and the need of the lead investigator. It is suggested that the team members of COE have more frequent interaction in the first year to shape the focus and then have periodic visits once or twice a year. The possible names for mentors were discussed and agreed to by the respective universities. The COE coordinators were requested to immediately get in touch with the mentors to make the proposals more focused on objectives and outcomes. Following the discussions, MOU were signed with each University. In view of its novelty, the following operating procedures would be followed regarding implementation of the COE.

1. Financial:

Normally, the Budget will be released in five equal installments. In case the COE has incorporated civil infrastructure, the designated fund will be released to PWD based on the estimates submitted by them. The COEs would need to discuss their user requirements with the concerned Engineer of PWD, Govt. of Odisha. For all other expenses under COE not specified here, OGFR, OHEPEE Finance Manual and /or

procedures followed by the respective universities (as per their acts, statute and Financial Manual) would apply. Submission of audited account will be pre requisite for release of fund in successive years.

2. Man Power :

The COE will recruit manpower under the following categories under project mode
