| Title of the research topic | INFORMATION SEEKING BEHAVIOUR OF THE TEACHERS AND RESEARCH SCHOLARS IN THE CENTRAL UNIVERSITIES OF UTTAR PRADESH: AN EMPIRICAL STUDY |
| Abstract of the research work (Max. 300 words) | Introduction:- The teaching and learning environment in higher education require information that support for knowledge development. Without information teaching and learning cannot flourish or survive. Teachers and students seek information for various purposes. They make use of printed documents or e-documents to get information. Researches reveal that with the emergence of web resources the information seeking behavior of students are changing rapidly all over the world. This is also true in the case of Central Universities in U.P. |

Objectives of the study-

The objective of research is to find out the frequency of visit of the library by the teachers and research scholars of social science and pure science disciplines. To know the purpose of visiting the library. To know about the sources used in order to fulfill the information requirements of the teachers and research scholars of social science and pure science disciplines. To know about the use of online database and CDROM database by the teachers and research scholars of social science and pure science disciplines.

Hypothesis-

Most of the teachers and research scholars of social science and pure science disciplines in Central Universities in U.P. visit the library when they need for consulting and issuing books, journals and reference documents, so as to update themselves. Most of the teachers and research scholars of social science and pure science disciplines in Central Universities in U.P. are seeking information through Internet/Online.

Research Methodology- For research, Survey Method will be used. There are five Central universities in U.P., but only four Central universities named B.H.U., Allahabad University, B.B.A.U. and A.M.U. have Social Science and Pure
