7	<b>Title of the Research Work</b>	Service Quality In higher Education in Odisha.
8	<b>Brief Abstract of the Research Work(250 Words)</b>	<p>The research focuses on assessing the service quality in higher education institutions in the state of Odisha, India. The study aims to understand the perceptions and expectations of students regarding various dimensions of service quality, and how these dimensions impact their overall educational experience. Through a comprehensive survey among a diverse sample of students from different universities and colleges in Odisha, the research investigates factors such as faculty competence, infrastructure facilities, administrative efficiency, curriculum relevance, and student support services. The data analysis employs statistical techniques to gauge the significance of these dimensions in influencing students' satisfaction and loyalty towards their educational institutions.</p> <p>The objective of research is to reveal a nuanced picture of service quality in higher education in Odisha. While certain aspects, such as faculty competence and curriculum relevance, receive positive feedback, there are areas of concern, particularly related to infrastructure and administrative</p>

		<p>processes. The research underscores the importance of addressing these gaps to enhance the overall quality of education and improve student satisfaction. Additionally, the study explores the role of demographic factors, such as gender, age, and academic discipline, in shaping students' perceptions of service quality. This analysis provides valuable insights into the varying needs and expectations of different student groups, enabling educational institutions to tailor their strategies accordingly.</p>
